Subject: RE: Dewey follow-up/next steps

Not a problem and thanks for trying to make it work! I'm out until Wednesday, but including Everett who will be in the office while I'm away.

Happy 4th everyone!

Yes – we will look at schedules. Sorry about that – we had this meeting set up previously so I just forwarded the invite without checking schedules for ORC.

Thanks Sarah for the update. Unfortunately, ORC has an ALL HANDS meeting next Wednesday at the same time as the DB Team meeting so none of the ORC folks will be able to attend. Is there another time that day that might work?

Hi Douglas, Brian, and Valois –

I just talked to Darcy and wanted to share a couple of thoughts with you all and follow up on the emails/messages we have been trading.

- Next steps on briefing topics – we have a Dewey team meeting next Wed, and I agree we can use that time to hear where everyone is at with their section of the RTC and what their anticipated schedule is. Brian – I'll forward the invite to you and others in ORC.
- Schedule – Darcy wants the team to keep moving ahead with the goal of completing the final permit actions by Aug 24. She understands that the NRC and consultation processes are “wild cards” here and may take more time, but she would like us to continue to push forward and finalize all the remaining work. I'd like to briefly talk through each area Wed and see if we can set some interim deadlines to keep the project on track. Particularly the RTC – I'd like to also discuss if/how we can further divvy up that work (e.g. if there are policy areas that Douglas and I can help with as one idea).
- NHPA – for negotiations on the NHPA PA addendum, Darcy asked that we reach out to NRC at multiple levels – technical/legal and leadership. Valois – please work with Mike when he's back to reach out at your levels. We can also have Greg discuss this when he has his upcoming call with NRC to talk about the Class III Permit requirements and Powertech's comments.
- Consultation – Darcy asked that we continue to reach out to OST to set up informational or planning meetings on the list of agenda topics we got from the tribe a few weeks ago. Valois – can you continue to prod them to get something scheduled? Darcy also thinks we will need to do in person consultation before Kim will consider our consultation efforts to be complete for OST. Darcy does not want to offer in-person consultation at this time, but does want to pursue these other meetings and continue to offer virtual consultation. In the end, Darcy said she would like just her to travel to OST since she is the one doing consultation (assuming they don't agree to a virtual meeting, which I think at this point is unlikely), and then Kim and Valois can participate by phone.

Please let me know if you have any questions – and I hope you all enjoy the long weekend!

Sarah
